8-10pm **Africa Beat** 10-2am **Uncle Cid:** Man's intellegence, by the way, has already effected a radical change in the solar system. Earth has suddenly become a powerful source of radio energy. "Thus,"says Carl the Sagan humanist, "the characteristic signs of life on Earth which may be detectable over interstellar distances include the baleful contents of many American television programs." It is a sobering thought that Gomer Pyle and the Beverly Hillbillies may be among our chief interstellar emissaries.--Kurt Vonnegut Jr.

STATION MANAGER SAYS: "NO ANCHOVIES PLEASE!"

Well, here it is another semester, and here I am again, leaving my schpeel on the mighty Program Guide. Last semester was great and this one should be even better. Listen for 'Live in the Lobby' every Tuesday nite at 7pm; and the ever so cool Renaissance Fair, live and in its entirety. Don't forget that Album preview has moved to 10pm every nite and *Pacifica* is still every Monday through Friday at 2pm and 630pm.

Make sure and keep reminding that lazy chief announcer Rich that he owes me large quantities of cola, and it's his turn to unlock the station. Thanks to my way cool staff, and all of the Di's that help keep the station alive. Have a great semester and listen to the Little Caesar Show with no Anchovies and extra cheese.

OKAY, WHO IS THIS GUY ANYWAY?

Your illustrious Chief Announcer who likes freedom rock and is known to read Leo Tolstoy over the air would like to say a few things so he can prove to his relatives that yes, he does have near omnipotence when it comes to the goings on at KUOI: First, I want to hug all of those DJ's who don't yell and scream at me when I call them at 3:00 a.m. and ask them to cover a show at 6:00. Second, Tim Cook is my half brother, twice removed, so it's really not as bad as you might think. Third, Mitch once invited me over to his humble abode so he could show me his wonderful speakers and sell me his computer, where Scott has never even taken me out for a beer. Kimmnn is locked in the Argonaut which is why I have so much time to ramble on and on and on. So there. Have a wonderful day, and remember, a few professors in the Forestry department have been known to listen to KUOI when their supervisors aren't looking. Like it really matters.

"I want my milk and I want it now"-Woody Guthrie. One killer line from a song who's title I can't remember. That doesn't correlate with much now does it? That's what we, the music dept. have to contend with on a daily basis. We receive and analyze the music mail, that's what we do as a team. I, the music director, am concerned with this. I also am concerned with who has each day's cola money. Through means of attrition I have determined that they're now broke. Its not like they've just been sued by U2, but possibly worse. Its not pretty. Thanks fellas...Guess what? Compact Discs are the way of the future. Believe it or not some people are only now learning this. I dunno.

PROGRAMMING COMMENTS BY TIMOTHY COOK

KUOI is a place that should always strive to reinvent itself, never pausing to rest on past achievements, personnel or traditions as KUOI's tradition is iconoclastic, just as it should be. This quality is both extremely rare and very precious. This radio station must not be satisfied with merely existing inside any particular niche it has carved for itself, it must instead be concerned with expanding and applying pressure upon its own walls by demolishing and resurrecting itself as regularly as possible. Ideally this translates into radio that provokes and challenges without descending into the same, the usual or the average.

I'd also like to acknowledge those that do and have contributed to the very iconoclastic nature of this station (in life): **Rob Lanphier, Matt Kitterman, Mitch Parks, Kate & Craig Redmond, William Berger, Keith Hamby, Sean Hoar, Steve Farneman, Denise Hardesty, Reenie Arnold, Leigh Robartes, HvC, Boscoe, Andrea-Chosch Pettinger, Jeff Kimberling, Stephanie Curry & Cynthia Mitall, Mat Halverson & Russ Young, Allison Mitchell, Chris Toshok, Donna Rhodes, C.C. Thunes, Peter Basoa, Ken Fate, S. Skott Larsen, Rich Wright, Scott McLaughlin, Jana Brevick, Brent Anyan, James, Alan Page, Kimm Perkins, and Charles Dube.**

Special thanks to all of our supporters and underwriters that realize KUOI is a very special cultural asset on this campus and in this community. Let me tell ya...It is an incredible challenge and pleasure working up here. Its really a rare experience being so closely associated with a pure aesthetic with the potential for perfection in every way. Demolish the old, ring in the new, listen everyday and drink plenty of water.

-Tim Cook/Music Director
