MESSAGES from the MADNESS

As another semester draws to an end, KUOI-FM looks forward and realizes it is time to call up from the masses any interested students wanting radio experience.

That's right, come on up to the studios on the third floor of the Student Union Building, and fill out an application for D.J., News Reporter, or assistantships come next semester. If you have no experience, or some, music interests, or showmanship, come up and check us out!

Oh by the by...be lookin' for KUOI-FM's Big Hoopla when Moscow FM student stereo hits the air waves.

Next semester holds lots of promise for student radio, that is if KUOI-FM gets student help. Who knows, maybe you can be on KUOI-FM. The only way to find out is to talk to us and fill out an application.

Keep listening and don't be afraid to give your feedback to your station.

Respectfully,

89.3 Student FM

KUOI-FM has converted to a Dolby F.M. signal to give our listeners a far better, quality sound.

Listeners with conventional radios benefit by a reduction of high-frequency distortion and/or an increase in program level.

Listeners who have Dolby adaptors for their radios obtain: (a) full program dynamic range; (b) improved signal-to-noise ratio; (c) better reception in weak signal areas; (d) reduced likelihood of interference.

Listen in, and FEEL the music!
